

Key Action: Partnerships for cooperation and exchanges of practices  
Action Type: Cooperation partnerships in vocational education and training

## Project Title

# VET Schools Doing Green

## Project Coordinator

**Organisation** Stichting Christelijk Regionaal Opleidingen Centrum Noord- en Oost Nederland

**Address** Boumaboulevard 573 , 9700 AE Groningen , Groningen , NL

**Website** [www.alfa-college.nl](http://www.alfa-college.nl)

## Project Information

**Identifier** 2023-1-NL01-KA220-VET-000154743

**Start Date** Oct 1, 2023

**End Date** Dec 31, 2025

**EC Contribution** 250,000 EUR

**Partners** Kuressaare Ametikool (EE) , Live-säätiö sr (FI) , Centro San Viator (ES) , ENAC ENTE NAZIONALE CANOSSIANO ETS (IT) , Ammattiopisto Luovi Oy (FI)

**Topics** Green skills ; New learning and teaching methods and approaches

## Project Summary

### Objectives

With this project, the partners want to reach the following objectives:

- to encourage VET staff to devote explicit time to promote sustainable and environmental skills, attitudes and values in VET curricula
- to include SDGs topics in the curricula through active teaching (the protagonists are the students) and cross-curricula content (interdisciplinary knowledge in order to enable students to connect knowledge across different disciplines)
- to include sustainable and green skills in the assessment

### Activities

A WP will be dedicated to increase staff awareness through the organization of 4 Staff Weeks which will be paired. For each pair, the partnership selected 3 SDGs to focus on. The first week of each pair will be dedicated to learning and training, the second to the practice: staff members, with the help of some experts, will create green assignments for the students. The other WP will be aimed at raising students' awareness through a 5-months piloting and then a Students Week to gather them all.

### Impact

The project aims at raising awareness among VET students & Staff on the importance of sustainability and SDGs and developing their Green Skills. In this way the partnership wants to contribute to raise Staff motivation to include environmental and sustainability related concepts inside the curricula. Concrete results (outputs) are a collection of experts' masterclasses, of good practices shared by staff and environmental organizations, assignments created by staff and projects realized by students.
